West Virginia University — Morgantown, WV *May 2025*
B.S., Business Administration | John Chambers College of Business & Economics | GPA: 3.8

RELEVANT EXPERIENCE

Researcher — WV Opioid Settlement Fund | Data Driven WV / West Virginia University, Morgantown, WV *January 2026 – Present*

- Contribute as a paid researcher on a team analyzing the West Virginia Opioid Settlement Fund, taking on a leadership role by guiding fellow researchers across all project phases.
- Oversee end-to-end data pipeline including data acquisition, cleaning, wrangling, and statistical/predictive modeling using Python (Pandas, NumPy, SciPy).
- Design and develop interactive Power BI dashboards to communicate research findings and fund utilization insights to stakeholders and policymakers.
- Drive data-driven decision-making to support effective allocation and accountability of opioid settlement resources across West Virginia.

Experiential Learner — Healthcare Analytics | Data Driven WV / West Virginia University, Morgantown, WV *August 2025 – Present*

- Collaborate with WVU Medicine to analyze patterns in geriatric patients with unplanned ICU admissions using national healthcare datasets.
- Apply R for data cleaning, wrangling, exploratory analysis, statistical modeling, and data visualization to support predictive insights and improve patient outcomes.
- Present findings and recommendations to clinical and data science teams, translating complex analyses into actionable insights.

Student Mentorship Program | Deloitte, Remote *January 2025 – April 2025*

- Conducted data-driven case analysis under Deloitte consultant mentorship, applying core consulting and analytics methodologies to solve client business problems and present insights to professionals.

Data Analytics Intern | Career Accelerator, Remote *August 2024 – December 2024*

- Analyzed corporate datasets (YouTube, Intel) using advanced Excel, SQL, and Python to identify trends and business opportunities.
- Built automated reports and dashboards in Power BI and Tableau to enhance decision-making efficiency.
- Developed forecasting models to identify key performance drivers and recommend optimization strategies.

ADDITIONAL WORK EXPERIENCE

Landscape Technician & Marketing Analyst | Billee's Lawn, Goldsboro, NC *May 2017 – August 2021*

- Designed and executed marketing campaigns that increased client acquisition by 20%; used Excel to analyze seasonal demand trends and segment customers for targeted outreach.
- Created social media and email marketing materials that boosted brand awareness and engagement.
